PETITION

Harding's Pits Doorstep Green, King's Lynn Norfolk

FAO: Mr Shaun Thomas, Regional Director, Natural England Eastern Region

We, the undersigned members of the communities of South Lynn, The Friars and the wider borough of King's Lynn, oppose any development resulting in the loss of the Doorstep Green at Harding's Pits. The Green is a facility which our communities value highly. We seek your assurance that Natural England will stand by the covenant which protects the Green from development other than as a public open space and wildlife reserve as agreed by the landowner, the Borough Council of King's Lynn and West Norfolk for the period of 25 years from September 2004.
